**at Princess Nourah bint Abdulrahman University is delighted to invite you to attend:**  
**(Securing the digital transformation journey of KSA "Kingdom Vision 2030")**  
**Speaker : Dr. Shaimaa Elsaid**

**Bio:**

Dr. Shaimaa Elsaid is an Assistant Professor at the Information Technology Department, College of Computer and Information Sciences, PNU University, KSA and the same position at Electronics and Communications Dep., Faculty of Engineering, Zagazig University, Egypt. She has received the MSc (2008) in Networks Security and PhD (2011) in Multimedia Security from the Faculty of Engineering, Zagazig University (Egypt). Her current research interests include Cyber security, Internet of things (IoT), Wireless Sensor Networks (WSNs), Routing security, Digital Image Processing, Medical Imaging, and Soft Computing. She is author of 2 books and many research papers published at international journals, and conference proceedings. Also, she has supervised many graduation projects and Master theses.

**Abstract:**

Cyber security comprises technologies, processes and controls that are designed to protect systems, networks and data from cyber attacks. Effective cyber security reduces the risk of cyber attacks and protects organizations and individuals from the unauthorized exploitation of systems, networks and technologies. Effective and robust cyber security requires measures based around three pillars: people, processes and technology. This three-pronged approach helps organizations defend themselves from both highly organized attacks and common internet threats, such as accidental breaches and human error.
