International Collaboration

Dentistry college remains active in terms of local collaborations, as it established another one (international collaboration) with Dundee University:

International cooperation between the College of Dentistry at Princess Noura University and the University of Dundee, Scotland, in the United Kingdom

7/16/1436

Princess Noura Bint Abdul Rahman University signed a number of memoranda of understanding with a group of international universities on the sidelines of the university's pavilion participating in the sixth International Exhibition and Conference on Higher Education. Among them was the agreement that brought together the College of Dentistry at the University and the University of Dundee (Scotland, UK), which is one of the leading educational institutions in Scotland that provides undergraduate, postgraduate and research studies in a large number of fields, and has made rapid steps in the field of providing high-quality educational services to students from all over the world, as the university was ranked among the top 200 universities in the Times Higher Education World University Rankings for 2014, and is also considered among the top 10 universities in the United Kingdom, and the first university in the world. She created the OSCE Objective Structured Clinical Examination system, in which the university includes four colleges, the College of Dentistry was one of the advanced and distinguished colleges with them.

International cooperation between the Faculty of Dentistry at Princess Nourah University and the University of Dundee - Scotland, UK.

Princess Nourah Bint Abdul Rahman University signed a number of memoranda of understanding with a group of international universities on the sidelines of the university's pavilion participating in the sixth International Exhibition and Conference on Higher Education.

Among them was the agreement that brought together the College of Dentistry at the University and the University of Dundee (Scotland, UK), which is one of the leading educational institutions in Scotland that provides undergraduate, postgraduate and research studies in a large number of fields, and has made rapid steps in the field of Providing high-quality educational services to students from all over the world, as the university was ranked among the top 200 universities in the Times Higher Education World University Rankings 2014, and is also considered among the top 10 universities in the United Kingdom, and the first university in the world. By creating the OSCE Objective Structured Clinical Examination system, where the university includes four colleges, the College of Dentistry was one of the advanced and distinguished colleges they have.

The Dean of the College of Dentistry at Princess Nourah Bint Abdulrahman University, Dr. Ibtisam Bint Muhammad Al-Madi, stated that the Memorandum of Understanding between the College of Dentistry at Princess Nourah Bint Abdulrahman University and the University of Dundee will be the nucleus of three future decades,

aiming to raise the level of university education to reach the unique global level in Three areas include (higher educational diploma and educational training certificate for health practitioners, master's program in maxillofacial orthodontics, faculty development through joint teaching, joint research projects, mutual projects, and postgraduate programs of masters and doctorates) In addition to the reciprocal visits of faculty members and students, taking into account preserving the national identity of each of them.

The University of (Dundee) also presented offers for educational and academic activities in line with the laws and regulations of the Kingdom of Saudi Arabia and preserves the property rights of both universities, and this is in the spirit of encouraging and promoting international cooperation between the University's College of Dentistry and the University of (Dundee), which is in the interest of Progress and advancement to raise the level of university education in general, and education in medicine and dentistry in particular.

[During the 6th International Exhibition & Conference on Higher Education the Princess Nourah bint Abdul Rahman University has signed a number of agreements with University of Dundee - Scotland, UK involving Faculty of Dentistry.](#)

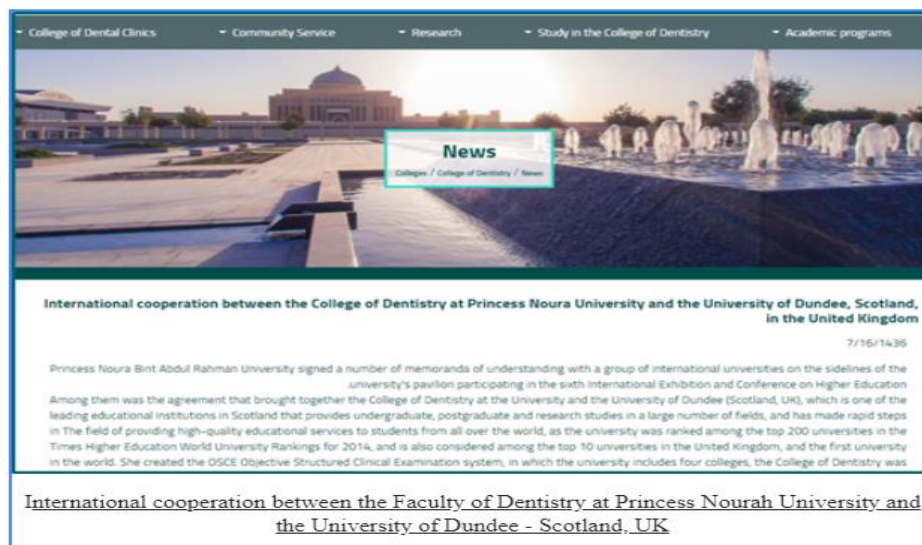

It is worth noting that the University of Dundee, is leader in Scotland and offers undergraduate and postgraduate in a large number of

fields and has made rapid strides in providing services. It has a high-quality educational program for students from all over the world, as the university was ranked among the top 200 universities in the world universities ranking issued by Times, besides, the College of Dentistry is one of the more distinguished and advanced colleges taking into account the ranking top 10 universities in the United Kingdom.

Thus, the Dean of the College of Dentistry at Princess Nora University, Dr. Ibtisam Bint Muhammad Al-Mady, stated that the agreements between the College of Dentistry at Princess University Nourah bint Abdul Rahman and Dandy University will be the nucleus of three futures contracts, aiming to raise the level of university education to reach it to the unique global level in three Areas include (Higher Education Diploma and Certificate of Educational Training for Health Practitioners, Master Program in Maxillofacial Orthodontics, and Development of Academic Staff.

In this sense, is expected a to raise the level of university education through joint teaching and conducting research projects mutual between postgraduate programs (master's and doctoral) in addition to visits, and exchange of members of the educational body and female students, taking into account the preservation of the national identity of each.

In the next screenshot from shows the International collaboration with Dundee University–Scotland.
