

H-Form ECE 498

A Brief Course Description			
College	Engineering		
Department/ Program	Electrical Engineering – Renewable Energy		
Course Name	Special Topics in REE		
Course Code	ECE 498		
Year / Level	5/10		
Credit Hours	3		
Contact Hours	Lecture: 3	Lab/Tutorial: 0	Training: 0
Language	English		
Course Type	<input type="checkbox"/> University <input type="checkbox"/> College <input type="checkbox"/> Department <input checked="" type="checkbox"/> Program		
	<input type="checkbox"/> Required <input checked="" type="checkbox"/> Elective		
Pre-requisites Course	Pass 136 CR		
Co-Requests	-		
Course Description	<p>This course emphasizes on selected new emerging issues in renewable energy engineering field . The syllabus for this course will be different every time the course is offered based on the current topics that are determined by the lecturers. The course will also involve study visits to companies that are related to in renewable energy engineering . The students will be requested to report on their visits to describe the new systems or techniques used in the field of in renewable energy engineering .</p>
